Corner bookmarks

CUT, FOLD, GLUE, SLIP ON A CORNER.

How to make it: 1. Cut along the dashed line. 2. Fold the two light flaps behind the face along the dotted lines. 3. Glue the flaps on top of each other; do not glue the back of the face, the pocket must stay open. 4. Slip the pocket over the corner of your page.

Plain paper works; the two overlapping flaps make it sturdy. Free, copy as many as your class needs · rafim-app.web.app/bookmarks
